STATEMENT OF APPRECIATION

GROUND LEVELING OF AND CONSTRUCTING OF TERRACES

IMPACT STORY CORNER

STATEMENT OF APPRECIATION

On behalf Rainbow House Of Hope management, staff, members, direct and indirect beneficiaries, we wish to greatly thank all members who attended the association meeting in the abnormal way due to covid-19 challenges. We also want to thank Almighty God for his protection over you all during this Covid-19 pandemic. We are so much excited to hear that you are all healthy and strong.

Your positive meeting feedback motivates and keeps us focused and working daily. Without your extra-ordinary, selfless commitment and financial support we wouldn't have registered the results we have achieved now.

Once again thank you much for the continuous commitment to our vision and mission through the moral and financial support.

Michael and Team

GROUND LEVELING OF AND CONSTRUCTING OF TERRACES

Having completed successful the first phase of Maya shifting works, the organization is continuing to make ground leveling of terraces. The leveling of and constructing of terraces is to preventing running water from washing away the soil hence causing soil erosion.

Secondly the work is also to beautify the place and also make accessibility of the area easy

IMPACT STORY CORNER

SUCCESS TESTIMONY

Three years back young lady shy and timid but determined to be professional fashion designer approached Rainbow House Of Hope for an opportunity to learn a skill in tailoring. As a school dropout this young lady Kakiye Aidha now aged 25 years was very much convinced that this was the only way for her to achieve her dream.

Aidha was indeed enrolled at rainbow to learn tailoring skills. After completing her course and attaining a recognized certificate from Directorate of Industrial Training by the Ministry of Education and Sports, Aidha embarked on her journey of economical survival in the market world.

Aidha was employed by somebody to make clothes and she was paid 2 euros daily. This was not the best option for her but she choose to work as she plots for her own business through saving her earnings.

Indeed that goal worked out for Aidha after one year of working for somebody, she saved money and acquired her own sewing machine. With sewing machine at hand, Aidha aggressively approached the market place and managed to survive despite all the challenges she faced.

Currently Aidha together with two friends have managed to rent a sizeable working space in the busiest business center in the city. Aidha's goal is to increase on her fashion style displays, right now she has four fashion style displays but she is working hard to increase this.

Through this work, Aidha can fend for her son and meet other basic needs in her family.

Aidha's story is a story of sustainable impact and testimony of how skills development is great catalyze of economic empowerment.

STORY OF HOPE

My name is Kafulumu Marvin, a proud member of rainbow house of hope Uganda. I joined RHU in 2012 after my P7. I seemed to be hopeless but when I joined RHU. Life became better; my life started changing positively where I met new friends and the new interactive environment in RHU.

While at rainbow, I have learnt a lot of things 'besides academics. I have learnt how to play band music, carpentry, tailoring, art and design, football, bandminton and volleyball.

In my academics, RHU has supported me from senior two up to university where now am doing a diploma in pharmacy. And hoping to graduate in next year 2022. After this course, I hope to help my fellow children in RHU. In financial support, health support, talent.

I thank the association for the continuous financial support given to Rainbow that through that support I got a great opportunity to pursue my career.

Mr Joscha & Mr Jonnass for your endless support.

THANK YOU SO MUCH.
